	Aligning long term and short term instructional program support:	Responsive, Adaptive & Engaging Instruction Transformational professional development Leadership and team coaching Data systems and analysis

Catalytic Agent across the Diverse Landscapes of Education

Vitae

Objective	To continuously engage in improving learning opportunities available to students, especially those whose learning needs are not being met, by utilizing my skills in facilitating inquiry based design and development processes to build capacity at all levels of schools and school support organizations across the spectrum of educational services.
Qualifications	Assisting teams in bringing clarity in efforts to improve performance opportunities for students has grown through unique opportunities and model teachers I have had in education, technology and media. This background has allowed me to serve as a leader in utilizing facilitated dialog, technology based information and mediated communications resources as drivers for strategic planning, project facilitation and a wide range of technical assistance services. These services include development of <ul style="list-style-type: none"> • conceptual documents, • charts and narratives that guide the development of project proposals, • strategic plans and • organizational capacity development. These efforts are collaboration driven through customized resources and protocols to map the thinking of diverse groups, development of conceptual discussion narratives and support in use of collaborative information systems.
Education	Master's Degree, Media Communications, Governors State University, Illinois. Master's Degree, Elementary Education, Governors State University, Illinois. Bachelor's Degree, Visual Education Studies, Empire State College, New York. Photography Certificate, Visual Studies Workshop, Rochester, New York.
